

Praxair's *Microbulk*™ delivery system is the perfect alternative for your beverage carbonation business. By replacing cylinders with an uninterrupted supply of high-quality CO₂ on-site, Praxair's *Microbulk* delivery system maximizes profitability and improves efficiency — and it's from Praxair, the world's largest supplier of carbon dioxide.

Praxair's *Microbulk* delivery system helps you:

- Improve drink quality (avoid “flat” drinks) with a consistent, uninterrupted CO₂ supply
- Increase fountain efficiency, which lowers gas consumption
- Eliminate downtime for cylinder changeouts and interruptions from deliveries
- Reduce accounting procedures and eliminate the ordering process
- Eliminate the need for store employees to handle cylinder changeouts

Explore all the benefits Praxair offers. Call **1-800-383-4262** today and see for yourself how we can help make a difference in your beverage carbonation operation.

Convenience

- Uninterrupted supply
- No cylinder handling and changeouts
- Reduced inventory management

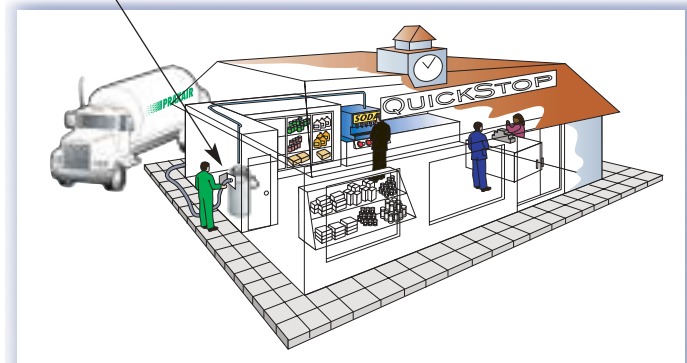

High Product Quality

- Consistent high purity throughout
- Higher product yield
- Constant flow

Increased Productivity and Savings

- Scheduled deliveries
- Eliminates downtime from cylinder changeouts
- No residual returned to supplier
- More efficient accounting and ordering
- Minimum inventory maintenance
- Productive use of labor force
- More room with fewer cylinders in storage area
- Lower maintenance costs

A locked, tamper-resistant fill box wall-mounted outside lets Praxair deliver the gas you need around the clock.

Beverage counter operators know the convenience of a Praxair *Microbulk* delivery system.

MODEL	160 lb	200 lb	300 lb	400 lb	600 lb
Liquid Storage Capacity (lb)	160	200	300	400	600
Gross Capacity (liters)	71	85	128	175	275
MAWP (psig)	300	300	300	300	300
Operating Pressure (psig)	125	125	125	125	125
Evaporation Rate (lb/day)	1.2	1.5	2.0	2.5	3.5
CO ₂ Delivery Rate (lb/h)	0.75	4.5	1.0	5.5	9.0
Peak Flow Rate (lb/h)	1.5	8.0	3.0	10	15
Diameter (in)	20	16	20	20	24
Height (in)	31	54	47	65	68
Empty Weight (lb)	145	170	200	305	365
Design Specifications	ASME	ASME	ASME	ASME	ASME
Materials Of Construction	Inner And Outer Vessels — Stainless Steel				

Improved Safety

- Reduces cylinder handling and changeouts
- No worries about cylinder leaks
- High-pressure cylinders replaced by low-pressure tanks
- No broken floor tiles to worry about

Commercial Applications

- Hotels
- Restaurants
- Fast food outlets
- Convenience stores
- Stadiums
- Food courts
- Movie theaters
- Indoor swimming pools
- Concession stands and more

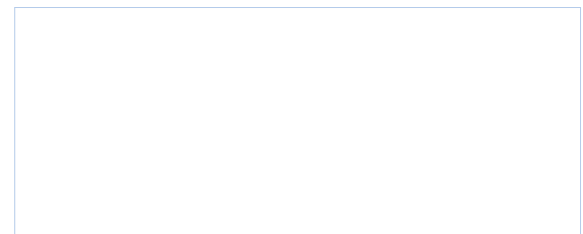

Praxair Microbulk Tanks

- Meet requirements of beverage dispensing operations
- Five sizes economically provide carbon dioxide for any requirement
- 6" unibody lets you meet health department requirements
- High-strength PVC shroud protects plumbing (200- and 400-pound tanks)
- Exclusive vaporizer design handles multiple high-flow needs

- Tank pressure, line pressure and liquid level appear on easy-to-read gauges
- Self-contained system is fully automatic — no special electric outlets required
- Constructed of stainless steel throughout
- Exclusive impurity removal system
- System can be used for carbonation and to run your pumps

For more information, contact Praxair today.

A variety of storage tanks are available to meet your specific needs.
