This document contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on management’s reasonable expectations and assumptions as of the date the statements are made but involve risks and uncertainties. These risks and uncertainties include, without limitation: the performance of stock markets generally; developments in worldwide and national economies and other international events and circumstances; changes in foreign currencies and in interest rates; the cost and availability of electric power, natural gas and other raw materials; the ability to achieve price increases to offset cost increases; catastrophic events including natural disasters, epidemics and acts of war and terrorism; the ability to attract, hire, and retain qualified personnel; the impact of changes in financial accounting standards; the impact of tax, environmental, home healthcare and other legislation and government regulation in jurisdictions in which the company operates; the cost and outcomes of litigation and regulatory agency actions; continued timely development and market acceptance of new products and applications; the impact of competitive products and pricing; future financial and operating performance of major customers and industries served; and the effectiveness and speed of integrating new acquisitions into the business. These risks and uncertainties may cause actual future results or circumstances to differ materially from the projections or estimates contained in the forward-looking statements. The company assumes no obligation to update or provide revisions to any forward-looking statement in response to changing circumstances. The above listed risks and uncertainties are further described in Item 1A (Risk Factors) in the company’s latest Annual Report on Form 10-K filed with the SEC which should be reviewed carefully. Please consider the company’s forward-looking statements in light of those risks.

The best track record in a great industry

---

Credit Suisse Chemical and Ag Conference - NYC 9/17/09
Unique Revenue Model

On-Site/Pipeline Supply

♦ 15 year take-or-pay contracts
♦ Indexed to energy, inflation, currency

Merchant Liquid Supply

♦ Exclusive supply agreements
♦ Sourced as by-product from on-site

Packaged/Medical Gases

♦ Cylinder and equipment rental
♦ Sourced as by-product from bulk

Integrated system; contract terms drive high ROC
Stable Pricing Through the Cycle

U.S. LIN/LOX Indexed Price vs. Volume
Executing Through the Downturn

H1 09 Sales % YOY

- Volume: -13%
- Price/Mix/Other: +3%
- Cost pass-thru: -4%
- Currency: -9%
- Total: -23%

H1 09 Operating Profit Variance

- Volume: (387) decrease
- Price: 155 increase
- FX: (137) decrease
- Cost Reduction: 216 decrease

Volume decline offset by cost reduction and price
Proven Track Record Driving Productivity

♦ Production

♦ Distribution

♦ Administration

Productivity savings are sustainable

% of Cost Stack

- 2007: 5%
- 2008: 5%
- 2009F: 7%
- 2010F: 5%
Oxygen Plants

♦ Standardized product lines
  – Up to 3000 TPD
  – >90% of plant builds

♦ Multi-year Technology Roadmap

Oxygen Cost Index ($ per ton O₂)

Maintaining competitive advantage in plant offerings
Applications Technologies

Renewable Biofuels

Photovoltaics

Oxy-fuel Combustion

Tons of CO₂ avoided per ton of O₂ used

Refinery | Steel | Glass | Aluminum

~2% per year sales growth from high margin applications
Hydrogen for Refining

♦ Developed markets
  – Expanding distillate capacity
  – Outsourcing captive production
  – Environmental pressures

♦ Emerging markets
  – Expanding refining capacity
  – Increasing refinery complexity
  – Emergence of outsourcing model
  – Fuel Emission Standards

Praxair hydrogen sales growing ~15% p.a.

Source: Praxair estimates
Clean Coal Power Generation

Praxair Oxy-Coal Technology

♦ Combustion technology with up to 99% CO₂ capture
  – Partnership with Foster Wheeler and Battelle
  – Retrofits and greenfield
  – Demo projects (US, Europe)

♦ Requires large O₂ plants
  – 10,000-12,000 TPD
  – ~$500MM capital investments

Commercialization depends on GHG legislation
Strong Presence in Emerging Economies

Praxair Sales

- United States: 44%
- Asia: 8%
- South America: 18%
- Mexico: 6%
- Europe: 14%
- PST: 5%
- Canada: 5%

2008 Sales $10.8 Bn

Per Capita Gas Consumption (% of US)

- U.S.: 100%
- Mexico: 24%
- Brazil: 19%
- China: 4%
- India: 1%

Strong growth expected from emerging economies
South America

2008 Sales $1.9 B

- Pro-growth policies
  - Low interest rates
  - Fiscal discipline
  - Foreign reserves

- Pragmatic stimulus package

- Expanding middle class

- Growth from energy, metals and manufacturing markets

- Best positioned and preferred supplier

Forecast sales growth of ~10% p.a. and OP growth of ~15% p.a.
Growth in Asia

2008 Sales – $1.0 B*

China
- Leading position
- Infrastructure development
- Coal gasification
- Environmental applications

India
- Praxair #1 supplier
- Strong domestic demand
- Outsourcing gas supply
- Growing energy opportunities

Expect sales to grow 15%+ p.a.

*Combined sales
Coal Gasification

♦ Active in China
  - Limited oil and gas availability
  - Plenty of low cost coal
  - Syngas chemical feedstock

♦ Praxair oxygen supply
  - Large oxygen plants
  - Integrated with gasification technology
  - 6,000 TPD in backlog

Significant future growth opportunity
Strong Opportunities in Mexico

- Praxair strongest position

- Increasing opportunities with PEMEX
  - Enhanced oil recovery
  - Oil well services
  - Hydrogen for refining

- Upswing in industrial investment

- $100 - $150MM per year capital investment

$1.4 B Industrial Gas Market

110 branches and filling stations
850 distribution vehicles
25,000 customers

Energy sector will drive strong growth
Strong Project Backlog

- 42 major on-site projects
- Project start-ups 2009 to 2011
- ~$2 billion in capex
- 2/3 in emerging markets

Q2 2009

# of projects, by region

12 Asia
10 South America
5 Mexico

Project backlog will drive revenue and earnings growth
Long-Term Growth From New Projects and Technologies

Annual Organic Sales Growth

- IP* + 5-8%
- 3-5% On-site project backlog
- 2-3% Environmental and energy technologies
- ?? Base business follows IP

Expect double digit EPS growth over the cycle

Future earnings growth will significantly outpace the economy

*Industrial production
Principles of Sustainable Development

**Governance and Integrity**
Maintain strong systems and a culture of global corporate governance, compliance, ethics, human rights, integrity and accountability.

**Strategic Leadership**
Stay current with, and take advantage of, emerging global opportunities, developments and challenges to position Praxair for the future.

**Customer Commitment**
Focus relentlessly on the delivery of customer value through continuous innovation that helps our customers enhance their product quality, service, reliability, productivity, safety, energy efficiency and environmental performance.

**Environmental Responsibility**
Achieve continuous environmental performance improvement and energy efficiency in our operations.

**Employee Safety and Development**
Provide opportunities that allow employees to develop to their fullest potential in a creative, inclusive and safe environment.

**Community Support**
Participate in community development in regions where we operate.

**Financial Performance**
Maintain year-on-year recognition from shareholders and stakeholders for top-tier financial performance.

**Stakeholder Engagement and Communication**
Partner with internal and external stakeholders to achieve a strong, secure and sustainable society, economy and environment.
