SECTION 1. Product and company identification

1.1. Product identifier

Name: Octanes
CAS No: 111-65-9
Formula: C8H18
Other means of identification: n-Octane, normal octane

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture: Industrial use. Use as directed.

1.3. Details of the supplier of the safety data sheet

Praxair, Inc.
10 Riverview Drive
Danbury, CT 06810-6268 - USA
T 1-800-772-9247 (1-800-PRAXAIR) - F 1-716-879-2146
www.praxair.com

1.4. Emergency telephone number

Emergency number: Onsite Emergency: 1-800-645-4633
CHEMTREC, 24hr/day 7days/week
— Within USA: 1-800-424-9300, Outside USA: 001-703-527-3887 (collect calls accepted, Contract 17729)

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture

GHS-US classification
- Flam. Liq. 2 H225
- Asp. Tox. 1 H304
- Aquatic Acute 1 H400

2.2. Label elements

GHS-US labeling
Hazard pictograms (GHS-US): GHS02 GHS08 GHS09

Signal word (GHS-US): DANGER
Hazard statements (GHS-US):
- H225 - HIGHLY FLAMMABLE LIQUID AND VAPOR
- H304 - MAY BE FATAL IF SWALLOWED AND ENTERS AIRWAYS
- H315 - CAUSES SKIN IRRITATION
- H336 - MAY CAUSE DROWSINESS OR DIZZINESS
- H400 - VERY TOXIC TO AQUATIC LIFE
- H410 - VERY TOXIC TO AQUATIC LIFE WITH LONG LASTING EFFECTS

Precautionary statements (GHS-US):
- P210 - Keep away from Heat, Open flames, Sparks, Hot surfaces. - No smoking
- P223 - Keep container tightly closed
- P240 - Ground/Bond container and receiving equipment
- P241 - Use explosion-proof electrical, lighting, ventilating equipment
- P242 - Use only non-sparking tools
- P243 - Take precautionary measures against static discharge
- P261 - Avoid breathing vapors
- P264 - Wash hands, forearms and face thoroughly after handling
- P271 - Use and store only outdoors or in a well-ventilated area
- P273 - Avoid release to the environment
Octanes
Safety Data Sheet P-6239

P280 - Wear face shield, protective clothing, protective gloves, eye protection
P391 - Collect spillage
P403+P233 - Store in a well-ventilated place. Keep container tightly closed
P235 - Keep cool
P405 - Store locked up
P501 - Dispose of contents/container in accordance with container Supplier/owner instructions

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS US)
No data available

SECTION 3: Composition/Information on ingredients

3.1. Substance
Not applicable

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. If breathing is difficult, trained personnel should give oxygen. Call a physician.

First-aid measures after skin contact: In case of contact, immediately flush affected areas with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Call a physician. Wash clothing before reuse. Discard contaminated shoes.

First-aid measures after eye contact: Immediately call a poison center or doctor/physician. Hold the eyelids open and away from the eyeballs to ensure that all surfaces are flushed thoroughly. Contact an ophthalmologist immediately.

First-aid measures after ingestion: Immediately call a poison center or doctor/physician. Do not induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: MAY CAUSE DROWSINESS OR DIZZINESS.
Symptoms/injuries after skin contact: CAUSES SKIN IRRITATION.
Symptoms/injuries after ingestion: MAY BE FATAL IF SWALLOWED AND ENTERS AIRWAYS.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: Carbon dioxide, Dry chemical, Water spray or fog.

5.2. Special hazards arising from the substance or mixture

Fire hazard: HIGHLY FLAMMABLE LIQUID AND VAPOR.
Explosion hazard: May form flammable/explosive vapor-air mixture.

5.3. Advice for firefighters
Firefighting instructions: DANGER: FLAMMABLE LIQUID AND VAPOR. Evacuate all personnel from danger area. Use self-contained breathing apparatus. Immediately cool surrounding containers with water spray from maximum distance, taking care not to extinguish flames. Avoid spreading burning liquid with water. Remove ignition sources if safe to do so. If flames are accidentally extinguished, explosive reignition may occur. Reduce vapors with water spray or fog. Stop flow of liquid if safe to do so, while continuing cooling water spray. Remove all containers from area of fire if safe to do so. Allow fire to burn out. On-site fire brigades must comply with OSHA 29 CFR 1910.156 and applicable standards under 29 CFR 1919 Subpart L - Fire Protection.
**Octanes Safety Data Sheet P-6239**

**Date of issue:** 01/01/2000  **Revision date:** 10/26/2016  **Supersedes:** 01/27/2015

---

**SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

**General measures**

Vapor forms explosive mixtures with air and oxidizing agents. If leaking gas catches fire, do not extinguish flames. Flammable and toxic vapors may spread from leak and could explode if reignited by sparks or flames. Vapors are heavier than air and may collect in low spots. Explosive atmospheres may linger. Before entering area, especially confined areas, check with an appropriate device.

#### 6.1.1. For non-emergency personnel

No additional information available

#### 6.1.2. For emergency responders

**Protective equipment**

Avoid breathing gas, vapors.

**Environmental precautions**

Avoid release to the environment. Prevent waste from contaminating the surrounding environment. Prevent soil and water pollution. Dispose of contents/container in accordance with local/regional/national/international regulations. Contact supplier for any special requirements.

**Methods and material for containment and cleaning up**

For containment:

On land, sweep or shovel into suitable containers.

**Reference to other sections**

See Heading 8. Exposure controls and personal protection.

---

**SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

**Additional hazards when processed**

May irritate skin, eyes, and respiratory tract. Use only with adequate ventilation or respiratory protection. Do not get liquid or vapor in eyes, on skin, or on clothing. Have safety showers and eyewash fountains immediately available. May form explosive mixtures with air. Keep away from heat, sparks, and open flame. Use only spark-proof tools and explosion-proof equipment. Protect containers from damage. Use a suitable hand truck to move containers; do not drag, roll, slide, or drop. For other precautions in using this product, see section 16.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only non-sparking tools. Use only explosion-proof equipment.

---

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage conditions**

Keep container tightly closed

Store only where temperature will not exceed 125°F (52°C). Post “No Smoking/No Open Flames” signs in storage and use areas. There must be no sources of ignition. Separate packages and protect against potential fire and/or explosion damage following appropriate codes and requirements (e.g, NFPA 30, NFPA 55, NFPA 70, and/or NFPA 221 in the U.S.) or according to requirements determined by the Authority Having Jurisdiction (AHJ). Always secure containers upright to keep them from falling or being knocked over. Install valve protection cap, if provided, firmly in place by hand when the container is not in use. Store full and empty containers separately. Use a first-in, first-out inventory system to prevent storing full containers for long periods. For other precautions in using this product, see section 16.

**Conditions to avoid**

Sources of ignition. Heat sources.

---

### 7.3. Specific end use(s)

No additional information available
**SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

### 8.2. Exposure controls

**Personal protective equipment**
- Avoid all unnecessary exposure.

**Hand protection**
- Wear protective gloves.

**Eye protection**
- Chemical goggles or safety glasses.

**Respiratory protection**
- Wear respiratory protection.

**Other information**
- Do not eat, drink or smoke during use.

**SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

- **Physical state**: Liquid
- **Appearance**: Colorless liquid.
- **Molecular mass**: 114.22 g/mol
- **Color**: Colorless
- **Odor**: Gasoline-like
- **Odor threshold**: No data available
- **pH**: No data available
- **Relative evaporation rate (butyl acetate=1)**: 1.4
- **Melting point**: -56.7 °C
- **Freezing point**: No data available
- **Boiling point**: 125.7 °C
- **Flash point**: 13 °C
- **Critical temperature**: 295.6 °C
- **Auto-ignition temperature**: 206 °C
- **Decomposition temperature**: No data available
- **Flammability (solid, gas)**: 1 - 6.5 vol %
- **Vapor pressure**: 10.45 mm Hg (at 20 °C)
- **Relative vapor density at 20 °C**: No data available
- **Relative density**: 0.7
- **Relative density of saturated gas/air mixture**: 3.86
- **Density**: 0.7036 g/cm³ (at 20 °C)
- **Solubility**: Water
- **Log Pow**: 5.18
- **Log Kow**: No data available
- **Viscosity, kinematic**: 0.6372 cSt
- **Viscosity, dynamic**: No data available
- **Explosive properties**: No data available

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
Other information Avoid release to the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations Dispose of contents/container in accordance with local/regional/national/international regulations. Contact supplier for any special requirements.
Additional information Handle empty containers with care because residual vapors are flammable.
Ecology - waste materials Avoid release to the environment.

SECTION 14: Transport information

In accordance with DOT
Transport document description UN1262 Octanes, 3, II
UN-No.(DOT) UN1262
Proper Shipping Name (DOT) Octanes
Class (DOT) 3 - Class 3 - Flammable and combustible liquid 49 CFR 173.120
Hazard labels (DOT) 3 - Flammable liquid

Packing group (DOT) II - Medium Danger
DOT Special Provisions (49 CFR 172.102) IB2 - Authorized IBCs: Metal (31A, 31B and 31N); Rigid plastics (31H1 and 31H2); Composite (31HZ1). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 °C (1.1 bar at 122 F), or 130 kPa at 55 °C (1.3 bar at 131 F) are authorized
T4 - 2.65 178.274(d)(2) Normal............. 178.275(d)(3)
TP1 - The maximum degree of filling must not exceed the degree of filling determined by the following: Degree of filling = 97 / 1 + a (tr - tf) Where: tr is the maximum mean bulk temperature during transport, and tf is the temperature in degrees celsius of the liquid during filling

Additional information
Other information No supplementary information available.
Transport by sea

Class (IATA) : 3 - Flammable Liquids
Packing group (IATA) : II - Medium Danger

SECTION 15: Regulatory information

15.1. US Federal regulations

Octane (111-65-9)
Listed on the United States TSCA (Toxic Substances Control Act) inventory
SARA Section 311/312 Hazard Classes
Immediate (acute) health hazard
Fire hazard

All components of this product are listed on the Toxic Substances Control Act (TSCA) inventory.

This product or mixture does not contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

15.2. International regulations

CANADA

Octane (111-65-9)
Listed on the Canadian DSL (Domestic Substances List)

n-Octane (111-65-9)
Listed on the Canadian DSL (Domestic Substances List)

EU-Regulations

Octane (111-65-9)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

15.2.2. National regulations

Octane (111-65-9)
Listed on the AICS (Australian Inventory of Chemical Substances)
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
Listed on the Korean ECL (Existing Chemicals List)
Listed on NZIoC (New Zealand Inventory of Chemicals)
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
Listed on the Canadian IDL (Ingredient Disclosure List)
Listed on INSQ (Mexican National Inventory of Chemical Substances)
Listed on CICR (Turkish Inventory and Control of Chemicals)
15.3. US State regulations

SECTION 16: Other information

Other information: When you mix two or more chemicals, you can create additional, unexpected hazards. Obtain and evaluate the safety information for each component before you produce the mixture. Consult an industrial hygienist or other trained person when you evaluate the end product. Before using any plastics, confirm their compatibility with this product.

Praxair asks users of this product to study this SDS and become aware of the product hazards and safety information. To promote safe use of this product, a user should (1) notify employees, agents, and contractors of the information in this SDS and of any other known product hazards and safety information, (2) furnish this information to each purchaser of the product, and (3) ask each purchaser to notify its employees and customers of the product hazards and safety information.

The opinions expressed herein are those of qualified experts within Praxair, Inc. We believe that the information contained herein is current as of the date of this Safety Data Sheet. Since the use of this information and the conditions of use are not within the control of Praxair, Inc, it is the user's obligation to determine the conditions of safe use of the product.

Praxair SDSs are furnished on sale or delivery by Praxair or the independent distributors and suppliers who package and sell our products. To obtain current SDSs for these products, contact your Praxair sales representative, local distributor, or supplier, or download from www.praxair.com. If you have questions regarding Praxair SDSs, would like the document number and date of the latest SDS, or would like the names of the Praxair suppliers in your area, phone or write the Praxair Call Center (Phone: 1-800-PRAXAIR/1-800-772-9247; Address: Praxair Call Center, Praxair, Inc. P.O. Box 44, Tonawanda, NY 14151-0044)
