our purpose

For more than 100 years, Praxair has taken something as fundamental as air and turned it into ways to make plants operate cleaner and more productive, food taste better, breathing easier and manufacturing processes more efficient – in short, to make all our lives better.

Praxair is a Fortune 250 company with products and technology that serve more than 20 different industries. We’re one of the world’s largest industrial gases businesses and you see our products and services at work every day, often without realizing it.
“We’re looking for people with the right talent, energy and ambition who are determined to make a difference in the world. At Praxair, attitude is everything.”

— STEVE ANGEL
Chairman, President & CEO

your possibilities

At Praxair you’ll join 27,000 talented and diverse people in more than 50 countries, all working hard to make a difference in the world and make our company successful. Our people work on challenging and meaningful projects and are trusted to take on responsibility early in their careers. Their contributions are valuable to our company, our customers, our communities and our shareholders.

At Praxair you’ll have the opportunity to:

- Build your skills
- Make your mark
- Enjoy your challenge
- Own your future
“If you are enthusiastic and eager to learn, Praxair has plenty of challenging opportunities to discover.”

— Preeti Chandra, B.Tech. in Chemical Engineering and Ph.D. in Chemical Engineering

Five years after joining Praxair’s R&D division, Preeti is now generating new technologies for gas supply systems with the Adsorption group as Development Specialist II.
We are always pushing the limits of our abilities and our knowledge. Our people are expected to continually learn and grow. We prepare Praxair’s next generation of leaders to explore career possibilities and develop important skills needed to succeed.

At Praxair you will be expected to take initiative, and we will support you along the way. Because we work in more than 50 countries across the globe, you have limitless opportunities to expand your skill set, get expert advice and mentoring and build the career you want. We’re a company of doers, but we’re also a company of learners.

Did you know?

Praxair serves more than one million customers worldwide in more than 20 industries including food and beverage, chemical, healthcare, electronics, energy, metal fabrication and steel.
“I love what I do because I get challenging tasks and the support of my team. I know I can count on them to help achieve our goals.”

— Ramon Fyffe, B.S. in Mechanical Engineering Technology

Ramon joined Praxair’s Leadership and Technical Orientation Program, and over the past four years he has developed skills in various areas such as distribution and technical support, and most recently he assumed the role as Facility Superintendent.
We do all kinds of difficult, interesting things for customers and we take real pride in the quality and creativity of our work. We work together and respectfully push each other to deliver. The standards we set and the accountability for the work we do mean a career at Praxair is rewarding both personally and professionally.

This is a company where success comes from taking initiative. Across the world, Praxair people challenge themselves on a daily basis to deliver innovative solutions. Our people have the experience and knowledge to get things done fast, right and safely.

Did you know?

Praxair’s water treatment applications enable the delivery of safe drinking water to more than 30 million people in China.
“It’s a place where your ideas are valued and where your expertise comes to life.”

— Lindsay Ives, B.S. in Chemical Engineering

Joining Praxair as a summer intern in the Buffalo, N.Y., area, Lindsay quickly found new opportunities for growth with the Global Supply Systems team as Process Engineer and now she is a Proposal Manager in Brazil and lives in Rio de Janeiro.
At Praxair, you have the chance to do work that has meaning in the world. We live by the words, *Making our planet more productive* and our commitment has never been stronger. We believe our responsibility extends to the communities in which we work, and we encourage our employees to give back.

Your hard work, commitment and innovative spirit will be rewarded and you will have the opportunity to make your mark.

**Did you know?**

Praxair directs its global charitable giving dollars primarily to organizations that work to improve the environment, diversity, healthcare and education. The majority of our charitable contributions are made to organizations where our employees volunteer and donate.
“You can go as far as you’re capable of going. No one is holding you back.”

— Scott Rummans, B.S. in Economics

Scott’s summer internship at Praxair during his junior year of college led to a full-time position in Government Relations upon graduation. He is now a Business Development Manager in Russia and lives in Moscow.
own your future

At Praxair, you’ll work on exciting and meaningful projects as you take responsibility for your career. We give you the opportunity to jump in and take on assignments that interest you because when you have a deep interest in something, you’ll do your best work.

We believe in teamwork and working toward common goals. Praxair is a place where you will see the dedication and enthusiasm of people, and get inspired to do more. If you have the energy, ambition and talent, we'll give you the support you need to fulfill your potential.

Did you know?

Praxair’s surface coatings are used on turbine engines that power almost every major commercial airliner in the world including the Boeing 787 dreamliner.
